## SUMMARY

---

Tech-savvy and detail-oriented Full Stack Developer with almost a year of industry experience, seeking a role as SWE. Passionate about data-driven decision-making, user engagement, and leveraging technical expertise to create high quality digital products that impacts numbers of users.

## EDUCATION

---

### Loyalist College (Toronto, ON, Canada)

Diploma in Computer System Technician Expected 2026, May

- **Relevant Coursework:** Business Communications and Emerging Technologies (AI)

## WORK EXPERIENCE

---

### NextUnicorn (Remote)

March 2025 – Present

Backend Developer (part-time/Contract)

- Worked on backend microservice architecture with a focus on the Authentication Microservice.
- Implemented secure user authentication flows and authorization protocols.
- Wrote comprehensive test cases for authentication microservice endpoints using Supertest, ensuring API reliability and performance.
- Collaborated with the DevOps team to streamline deployment processes for microservices.

**Tech Stack:** TypeScript, Node.js, React/Nextjs, Docker, Jest, Supertest, PostgreSQL, Supabase, Git/GitHub.

### Dobaato. (Remote)

Jan 2025 – Present

Frontend Developer Intern

- Worked on Dobaato's landing page and Integrated a Content Management System (CMS) for managing Blogs and Career section of the page.
- Saahitt Project: Currently working on integrating the backend developed in Django with the frontend using Next.js. This involves handling data efficiently and ensuring seamless communication between the frontend and backend systems.
- Collaborated with UI/UX team of Saahitt to match the Frontend.
- Assisted in SEO optimization and content structuring to enhance site visibility and organic reach.

**Tech Stack:** TypeScript, React.js, Docker, NextJs, Redux , Supabase, Git/github, Postgresql.

### Open-Source Contributor at KeepReact (Remote)

Sept 2023 - Nov 2023

- Resolved a user experience issue by modifying the avatar image group behavior, eliminating unintended redirection to the homepage.
- Contributed to improving the frontend UI design, ensuring better usability and a smoother interaction flow.
- Worked on three file changes with a single commit, demonstrating attention to detail and efficient problem-solving.

## PROJECTS

---

### Create-mytech (CLI tool for Full-stack development)

- Designed and published a command-line interface (CLI) tool called "create-mytech" on npm, aimed at simplifying the setup of full-stack web applications.
- GitHub link: <https://github.com/darkweb19/create-mytech>
- NPM link: <https://www.npmjs.com/package/create-mytech>

### Image Selling Application

Built a full-stack image selling application as part of a YouTube tutorial, featuring:

- User Authentication: Implemented secure user authentication using NextAuth, enabling seamless login and registration.
- Image Upload: Integrated ImageKit for efficient image uploads and management, ensuring optimized delivery and storage.
- Product Management: Designed and implemented CRUD operations for product management, enabling easy addition, editing, and deletion of images.
- Github link: <https://github.com/darkweb19/Optics-FullStack>
- Live Preview: <https://optics-full-stack.vercel.app/>

**Technologies:** Next.js, React, Tailwind CSS, NextAuth, ImageKit,

### Finance Wanabee

- Finance Wanabee is a web-based application designed to help individuals effectively manage their personal finances.
- Utilized Next.js for the frontend, Prisma for ORM, PostgreSQL for database, and TypeScript for type-safe development.
- Database hosted on GCP's Virtual Instance on a Docker Container for learning Cloud Platforms.
- GitHub link: <https://github.com/darkweb19/next-auth-scratch>
- Live preview: <https://finance.sujansthadev.com.np/>

## SKILLS & ACTIVITIES

---

**Languages:** Fluent in English; Conversational Proficiency in Hindi and English

### Technical Skills:

- **Web Development:** TypeScript, React, Next.js, Express, Tailwind, Nodejs, Convex, Redux, Python.
- **Database Management:** MySQL, PostgreSQL, Mongo DB, NoSQL
- **Tools:** AWS, Docker, git, GitHub, Linux, GCP , Prisma , Drizzle

## CERTIFICATIONS

---

- MERN Stack bootcamp: Completed a bootcamp on MongoDB, Express.js, React, and Node.js, (MERN) gaining hands-on experience in full-stack web development.

## INTERESTS

---

- Exploring AI and Machine Learning and Automation.
